

KIRUTHIGAN THANGARAJ

Software & AI Automation Engineer | Computer Vision, Cloud & Enterprise Systems

Nuwara Eliya District, Sri Lanka • kiruthigantlinkdin@gmail.com • linkedin.com/in/kiruthiganthangaraj02082121

PROFESSIONAL SUMMARY

Results-oriented Software & AI Automation Engineer with 2+ years of commercial experience delivering AI agent architectures, computer vision pipelines, cloud deployments, and enterprise operational portals. Proven track record in deploying agentic HR management platforms, configuring AWS cloud infrastructure and PostgreSQL backends, and customizing SugarCRM & WordPress/Gravity Forms workflows. Experienced in rapid prototyping, AI-assisted development, and delivering production-ready business software.

TECHNICAL SKILLS & COMPETENCIES

- **AI Agents & Computer Vision:** Agentic HR Workflows, Roboflow Object Detection, Box & Quantity Counting, LLM Integrations, Workflow Automations
- **Cloud & Backend Infrastructure:** AWS (EC2, S3, Core Cloud Provisioning), PostgreSQL, MySQL, Supabase, Relational Database Modeling, REST APIs
- **Enterprise Platforms & CMS:** SugarCRM Customization & Workflows, WordPress Development, Advanced Gravity Forms Architecture
- **Application & Mobile Systems:** Restaurant Ordering Mobile Apps, Retail Management POS Portals, Dynamic Web Scraping, Rapid Prototyping
- **Tools & Environments:** Git, VS Code / Cursor, Postman, Vercel, Supabase Cloud, Linux / Bash

PROFESSIONAL EXPERIENCE

Xaltrix — Nuwara Eliya District, Sri Lanka

Software Engineer | July 2025 – Present

- Architected and deployed AI agent integrations and cloud/backend services using AWS, PostgreSQL, and RESTful APIs.
- Engineered and enhanced mobile application features, streamlining data sync workflows and user experience.
- Collaborated within cross-functional teams to rapidly build, test, and ship custom client software solutions.

Adveccio — Nuwara Eliya District, Sri Lanka

Associate Software Engineer | April 2024 – June 2025

- Developed core database modules and relational data models in PostgreSQL for business management platforms.
- Built and tested UI components for mobile and web systems, ensuring responsive performance across devices.
- Conducted API testing, integrated WordPress/Gravity Forms workflows, and supported CRM maintenance.

KEY PROJECTS & PRODUCTION SYSTEMS

- **Smart Agentic AI HR & Employee Management System:** Engineered an autonomous AI-driven HR management system that automates employee onboarding, records tracking, leave management, and internal request routing through multi-agent workflows.
- **SugarCRM Custom Workflows & Integrations:** Implemented custom process automations, record pipelines, and modules within SugarCRM to streamline business lead pipelines and operational record keeping.
- **WordPress & Gravity Forms Enterprise Solutions:** Developed advanced form logic, payment gateways, and data routing pipelines utilizing WordPress and complex Gravity Forms configurations connected to external APIs.
- **Roboflow Vision Box & Quantity Counting Pipeline:** Built an automated computer vision pipeline using Roboflow object detection models to accurately identify, track, and count inventory boxes/packages in store environments in real time.
- **Restaurant Order-Taking Mobile App & Kitchen Portal:** Built a dedicated restaurant ordering mobile application paired with a kitchen display system to manage real-time tickets, preparation tracking, and order dispatching.
- **Physiotherapy Clinic Management & Appointment Booking Platform:** Engineered an end-to-end clinical operations system featuring a cross-platform mobile client built with Flutter/Dart and an asynchronous backend powered by FastAPI; automated patient appointment scheduling, practitioner leave tracking, session histories, and clinical reporting workflows backed by a structured relational database.
- **Retail POS & Import/Export Management Systems:** Architected custom ERP software handling multi-currency invoicing, consignment tracking, inventory stock movements, and daily sales backed by PostgreSQL.

EDUCATION

University of Moratuwa — Sri Lanka

Bachelor of Information Technology (BIT) | August 2024 – August 2027 (Expected)
